WHO IS SURS?

The Governor and General Assembly founded the University Retirement System in 1941 as an administrator of benefits for employees of the University of Illinois. In the following years, the system grew to include other universities, colleges, and affiliated agencies throughout the state. In 1963, the system adopted its current name, State Universities Retirement System (SURS). SURS employs 120 individuals in its Champaign office and provides retirement, survivor, disability, and death benefits to over 212,000 members throughout the world.

WHO WE SERVE

Currently, SURS serves 65 employers in Illinois. Our employing agencies include public universities, community colleges, and other affiliated state agencies.

OUR MEMBERSHIP

SURS serves a diverse group of employees with occupations ranging from professors and teachers to clerical, building service workers, and groundskeepers.

SURS MEMBERS DO NOT PARTICIPATE IN SOCIAL SECURITY

Unlike many other public pension systems, SURS is the sole source of retirement income for its participants. The state/employer does not contribute to Social Security on the employee's behalf and there is no coordinated benefit for SURS-covered employment from Social Security upon retirement.

In addition, retirees who may qualify for Social Security benefits from other, non-SURS covered employment, may be affected by the Windfall Elimination Provision or the Government Pension Offset, resulting in an offset of their Social Security benefit.

MODERATE COST

SURS does not provide "overly generous" benefits. And the cost of those benefits is modest. The normal cost to the state to pay for the FY 2012 benefits is 12.71% of payroll, or \$444.2 million. SURS participants don't contribute to Social Security – and neither does the state on their behalf. If SURS members were covered by Social Security, the employer cost for that alone would be approximately \$216 million.

SURS FACTS

• The SURS Board of Trustees is comprised of 11 members: four appointed by the Governor, four contributing members elected by the contributing members of SURS, two annuitants elected by the annuitants of SURS, and the chair of the Illinois Board of Higher Education

- 44% of members are professors and teachers
- 56% are staff employees such as building service workers, groundskeepers, clerical, and administrative staff
- 62% of benefit recipients receive \$2,600 or less per month
- 79% of retirees reside in Illinois
- The average monthly retirement benefit of a SURS annuitant is \$2,913
- SURS funding ratio at June 30, 2011, was 45.2% (market value)
- As of June 30, 2011, System assets were \$14.24 billion and liabilities were \$31.5 billion
- SURS investment return for FY 2011 was 23.8% net of fees
- In FY 2001, retirement benefit payments totaled \$593.7 million. In FY 2011, that amount grew to \$1.47 billion
- In FY 2011, benefits paid over contributions received (both employer and employee) was approximately \$649 million

SURS RETIREMENT PLANS

The State Universities Retirement System of Illinois (SURS) provides retirement, disability, death, and survivor benefits to eligible SURS participants and annuitants. SURS members must choose one of three retirement options; the Traditional Benefit Package, the Portable Benefit Package, or the Self-Managed Plan (SMP).

Their choice is permanent and cannot be changed. Information is sent to all new members, along with an election form, to help them make their choice. If a new member fails to choose within six months, they will be permanently enrolled in the Traditional Benefit Package.

DEFINED BENEFIT PLANS

The SURS Traditional Benefit Package is the historical SURS Defined Benefit retirement plan. Until 1998, it was the only SURS plan available. It provides lifetime retirement benefits and provides for a survivor benefit at no additional cost. However, the separation refund feature is not generous.

The SURS Portable Benefit Package is also a Defined Benefit retirement plan that has much in common with the Traditional Benefit Package. It provides a more generous separation refund if you leave the System. However, the provisions for survivor benefits require a reduction to the retirement and death benefits.

DEFINED CONTRIBUTION PLAN

The SURS Self-Managed Plan (SMP) is a Defined Contribution plan that establishes an account in your name into which your contributions and the employer (State of Illinois) contributions are placed. You decide how your account balance will be invested, selecting from a variety of mutual funds and variable annuities.

PUBLIC ACT 96-0889

Governor Quinn signed Senate Bill 1946 (now Public Act 96-0889) into law on April 14, 2010. The resulting changes to the Illinois Pension Code modify SURS benefits for employees hired on or after January 1, 2011, who are considered Tier II members.

| | Tier 1 Members First Employed Prior to January 1, 2011 | Tier 2 Traditional and Portable Plan Members First Employed On or After January 1, 2011 |
|---|--|--|
| Minimum Vesting | 5 years of service | 10 years of service |
| Normal Retirement Age (without age reduction) | Age 62, with at least 5 years Age 60, with at least 8 years At any age with at least 30 years | Age 67, with at least 10 years of service |
| Earliest Retirement Age (with age reduction) | Age 55, with at least 8 years of service | Age 62, with at least 10 years of service |
| Age Reduction | 1/2 of 1% for each month under age 60 | 1/2 of 1% for each month under age 67 |
| Final Rate of Earnings (FRE) | Average earnings during 4 high consecutive academic years; or The average of the last 48 months prior to termination (if applicable). | The average earnings of the highest 96 consecutive months (8 yrs) during the last 120 months (10 yrs) of service. |
| FRE Limits | Limited to 20% year over year increases in earnings for years in the FRE period. | The same 20% annual increase limit; and Average is limited to a maximum of \$106,800 for 2011, which is increased annually thereafter by the lesser of 3% or one-half of the change in the Consumer Price Index for the preceding year. |
| Retirement Benefit AAI (Automatic Annual Increase) | The AAI (annual cost of living increase) is 3%, compounded annually. | The AAI is calculated using the lesser of 3% or one- half of the change in the Consumer Price Index. The increase will not be compounded. |
| Survivor Benefits | An eligible survivor receives a minimum of 50% of the member's earned retirement annuity. | An eligible survivor receives 66 2/3% of the participant's earned retirement annuity. |
| Survivor AAI | The AAI (annual cost of living increase) is 3%, compounded annually. | The AAI is calculated using the lesser of 3% or one- half of the change in the Consumer Price Index. The increase will not be compounded. |

STATE EMPLOYEE TWO-TIER RETIREMENT SYSTEM

SURS FUNDING HISTORY

Prior to 1989, statute provided that the employer contribution should be sufficient to meet the requirements of the Pension Code in accordance with actuarial determinations. In no event were employer contributions from State appropriations to be less than an amount which, when added to contributions from other sources, is less than the total accruing normal costs plus interest at the prescribed rate on the unfunded accrued liabilities.

P.A. 86-273

The 1989 funding plan attempted to add some particularity. Beginning in fiscal year 1990, the State's contribution was to be increased incrementally over a 7 year period so that by fiscal year 1996 the minimum contribution to be made by the State was to be an amount that is sufficient to meet the normal cost and amortize the unfunded liability over 40 years as a level percentage of payroll.

P.A. 88-593

The 1995 funding plan created the 50-year funding plan under which the retirement systems have been funded since fiscal year 1996. The State's contribution was to be increased incrementally over a 15 year period so that by fiscal year 2011 the minimum contribution to be made by the State was to be an amount that is sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities by the end of fiscal year 2045.

CONVERSION FROM BOOK TO MARKET VALUE

In fiscal year 1997, in order to comply with new GASB standards, SURS began to carry its assets on its books at market value rather than book value. This change alone increased SURS's funding level from 54.5% to 79.4% in that year.

P.A. 93-2

P.A. 93-2 authorized issuance of \$10 billion of General Obligation Bonds to the 5 state retirement systems. On July 2, 2003, SURS received \$1.432 billion in bond proceeds, pursuant to the Act. Through June 2010, SURS has had a return of 51% on the bond proceeds, for an annualized rate of return of 8.5%.

Instead of providing the full proceeds to the systems to pay down the unfunded liability, the state used \$2.7 billion of the proceeds to pay 5 fiscal quarters of the already required state contribution beginning with the 4th quarter contributions in fiscal year 2003 - 001 \$7.3 billion of the \$10 billion in bond proceeds went to reduce the pension systems' unfunded liabilities.

P.A. 94-4

P.A. 94-4 significantly lowered state contributions for fiscal years 2006 and 2007. SURS received \$166,641,900 in fiscal year 2006 and \$252,064,100 in fiscal year 2007- \$378 million less than projected contributions under the 1995 funding plan.

P.A. 96-0043

P.A. 96-43 authorized issuance of \$3.7 billion of General Obligation Bonds to the 5 state retirement systems. On January 20, 2010, SURS received \$552 million in proceeds representing the General Revenue Fund portion of the SURS fiscal year 2010 certified contribution.

P.A. 96-1497

P.A. 96-1497 authorizes issuance of \$4.1 billion of General Obligation Bonds to the 5 state retirement systems. SURS is expected to receive approximately \$700 million in proceeds representing the General Revenue Fund portion of the SURS fiscal year 2011 certified contribution.

P.A. 97-0054

P.A. 97-0054 appropriated to SURS the Fiscal Year 12 certified contribution amount of \$980,485,000. As of December 31, 2011, SURS has received \$340,621,000.

HISTORY OF STATE CONTRIBUTIONS

Standard pension funding as established by the Governmental Accounting Standards Board Statements No. 25 and 27, called the "annual required contribution" or "ARC," requires payment by the employer of the total normal cost for the fiscal year, plus an amount sufficient to amortize the Unfunded Actuarial Accrued Liability (UAAL) over a prescribed period of time (currently 30 years). The chart below provides an interesting comparison of the State contribution over the years as a percent of the net State ARC.

| Fiscal Year | Total ARC | Member Contributions | Net State ARC | Actual State Contribution | State Contribution as % of Net ARC |
|----------------|--------------|-------------------------|------------------|------------------------------|--|
| 1994 | \$706.8 | \$183.1 | \$523.7 | \$133.8 | 25.5% |
| 1995 | 739.5 | 185.9 | 553.6 | 128.1 | 23.1 |
| 1996 | 787.1 | 197.0 | 590.1 | 147.4 | 24.9 |
| 1997 | 634.8 | 202.2 | 432.6 | 182.0 | 42.0 |
| 1998 | 512.1 | 221.7 | 290.4 | 227.8 | 78.4 |
| 1999 | 509.2 | 213.0 | 296.2 | 237.9 | 80.3 |
| 2000 | 547.8 | 222.5 | 325.3 | 241.1 | 74.1 |
| 2001 | 548.1 | 221.6 | 326.5 | 247.1 | 75.7 |
| 2002 | 686.9 | 251.6 | 435.3 | 256.1 | 58.8 |
| 2003 | 843.8 | 246.3 | 597.5 | 285.3 | 47.7 |
| 2004 | 934.8 | 243.8 | 691.0 | 1,757.5 | 254.4 |
| 2005 | 859.7 | 251.9 | 607.8 | 285.4 | 47.0 |
| 2006 | 914.9 | 252.9 | 662.0 | 180.0 | 27.2 |
| 2007 | 968.3 | 262.4 | 705.9 | 261.1 | 37.0 |
| 2008 | 971.6 | 264.1 | 707.5 | 344.9 | 48.8 |
| 2009 | 1,147.3 | 273.3 | 874.0 | 451.6 | 51.7 |
| 2010 | 1,278.3 | 275.0 | 1003.3 | 696.6 | 69.4 |

FISCAL YEAR 2013 CERTIFIED CONTRIBUTION

The required state contribution to SURS for FY 2013 is \$1,402,800,000 and contributions to the five state retirement systems total \$5,868,300,000.

CONSEQUENCES OF UNDERFUNDING

Historical underfunding of the state retirement systems has positioned Illinois last in the nation on pension funding. As of June 30, 2011, the state retirement systems unfunded liabilities totaled \$83.1 billion, and the systems were 43.3% funded based on a market value of assets. SURS unfunded liabilities totaled \$17.2 billion, and SURS was 45.3% funded based on a market value of assets.

Pension funding has a significant impact on the fiscal stability of the State. Continual funding of the systems' certified contributions ensures less dramatic increases in contributions from year to year.

Failure to appropriate any year's certified contribution increases the systems' unfunded liabilities and increases long term costs to the State. Bond rating agencies continually highlight the systems' unfunded liabilities as reason for downgrades in the State's bond rating. Lower bond ratings significantly impact the State's cost of issuing debt.

SURS actuaries estimate that an FY 13 "pension holiday" would increase State contributions to SURS by \$3.02 billion over the next 32 fiscal years. In 2010, SURS actuaries estimated that the benefit reform package adopted in Public Act 96-889 saved the State nearly \$6.4 billion in contributions over the following 34 fiscal years. A one year "pension holiday" would front those savings and eliminate 48% of projected savings over the next 32 fiscal years.

HISTORICAL FUNDING RATIOS

*Using Market Value of Assets Method

This chart shows the projected total State contributions through Fiscal Year 2045, based upon current actuarial assumptions and the June 30, 2011, actuarial evaluation. The columns titled "FY 13 Pension Holiday" and "Impact of FY 13 Pension Holiday" were included to show the significance of yearly contributions.

| Fiscal | SURS | SMP | \$ Total State | FY 13 | Impact of |
|--------|--------------|--------------|----------------|------------|-----------|
| Year | Contribution | Contribution | Contribution | Pension | FY13 |

PROJECTION OF FUTURE CONTRIBUTIONS (IN MILLIONS)

SURS INVESTMENT PROGRAM HISTORY

SURS has been developing its investment program since the early 1980s, when Illinois, like many other states, changed its laws to allow the state pension funds to adopt modern investment practices. At the same time, the new laws established a high standard of fiduciary responsibility, namely adopting the prudent expert rule. Those changes permitted the investment program to modernize, resulting in investment income and gains of more than \$13.6 billion dollars over the past twenty-five years. This growth in assets has been achieved during a time when the fund has earned 10.0 percent per year. During this same period, funding by the State of Illinois fell far short of both the actuarial and statutory requirements, missing an opportunity for SURS to significantly reduce, if not eliminate, its unfunded liability.

HOW HAS SURS DONE IN RELATION TO THE MARKETS AND TO ITS PEERS?

| | FY ended 6/11 | 3 yrs | 5 yrs | 10 yrs | 20 yrs | 25 yrs |
|--------------------|---------------|-------|-------|--------|--------|--------|
| SURS | 23.8% | 4.6% | 5.3% | 6.1% | 8.5% | 8.8% |
| Policy Portfolio | 23.4% | 4.6% | 5.0% | 6.0% | 8.0% | 8.1% |
| Public Funds Index | 21.0% | 3.6% | 4.6% | 5.6% | 8.0% | 8.2% |

The Public Funds Index is the average return of a universe of SURS's peers. SURS has generally outperformed this index.
